

**REISSUE APPLICATION DECLARATION BY THE INVENTOR**Docket Number (Optional)  
16113-1342RE2

I hereby declare that:

Each Inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in the patent number 5,918,014, granted June 29, 1999 and for which a reissue patent is sought on the invention entitled Automated Collaborative Filtering in World Wide Web Advertising

The specification of which

☐ is attached hereto.

☒ was filed on June 29, 2001 as reissue application number 09/893,748 and was amended on June 29, 2001, February 3, 2006, and June 17, 2009.  
(if applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred above.

I acknowledge the duty to disclose to the United States Patent and Trademark Office all information known to me to be material to patentability as defined in 37 CFR 1.56, including for continuation-in-part applications, material information which became available between the filing date of the prior application and the national or PCT International filing date of the continuation-in-part application.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of others errors.

At least one error upon which is reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

The claims recite the invention more narrowly than is necessary. For example, claim 8 includes the unnecessary limitation, "tracking activities of the subject in the interactive medium." New independent claim 26, for example, addresses this error by eliminating this unnecessary limitation. The addition of claim 26, among others, is considered to be broadening in that claim 26 is broader than claim 8.
